ABOUT ME

I am a 3D Artist and Game Design student specializing in character sculpting, procedural texturing, and real-time game development. I enjoy creating stylized assets and exploring how gameplay systems define player experience. My focus is on building visually strong models and prototypes that feel good to play and look at.

Education

B.Sc. Animation, VFX & Gaming

Specialization: Game Design and Development

Chandigarh University, Mohali, Punjab

2023 – 2026 (Pursuing)

Languages

Hindi – Fluent

English – Fluent

GAME & INTERACTIVE PROJECT

Game Mechanic Prototype – Unity (FOXY)

Role: Game Design & Development

Tools: Unity, C#

Link: <https://aaryangoswami.itch.io/foxy>

A prototype built in Unity focusing on responsive 2D character movement, physics interactions, jump arcs, camera follow and level block-out. The goal was to explore game feel, player control and early combat logic. Art assets are not mine. A playable build is available on itch.io.

3D CHARACTER & CREATURE SCULPTING

Attack Titan – Fan Art Character Sculpt

Software: ZBrush, Adobe Substance Painter, Blender

Role: Sculpting & Texturing

A fan art 3D sculpt inspired by the Attack Titan from Attack on Titan. Created to study human anatomy, muscle flow and facial structure in a more realistic style...

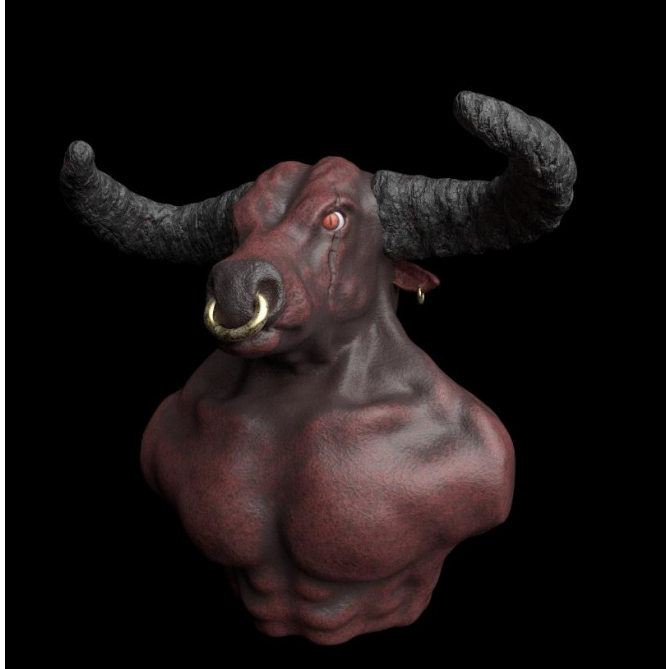

Minotaur – Creature Bust

Software: ZBrush, Substance Painter, Blender

Role: Sculpting, UVs, Baking, Texturing

A stylized creature bust inspired by Minotaur mythology, focusing on exaggerated anatomy and strong silhouette...

Cheetah Skull – Anatomy Study

Software: ZBrush, Substance Painter, Blender

Role: Sculpting, UVs, Baking, Texturing

A realistic anatomical study of a cheetah skull to understand underlying bone structure, proportions and tooth placement...

STYLIZED WEAPONS & HERO PROPS

Fantasy Axe – Game Prop

Software: ZBrush, Substance Painter, Blender

Role: Sculpting, Low Poly, UVs, Texturing

A stylized axe created as a game prop, fully sculpted from scratch in ZBrush...

Rengoku's Katana – Fan Art (Blender)

Software: Blender (Modeling, Shading, Lighting, Rendering, FX)

Role: All aspects

A fan art recreation of Rengoku Kyojuro's katana from Demon Slayer...

ENVIRONMENT ART

Haunted House – Stylized Environment

Software: Autodesk Maya, Substance Painter, Arnold

Role: Environment Modeling, Texturing, Lighting

A stylized haunted house environment modeled entirely in Maya...

PROP & PRODUCT MODELING (MAYA + ARNOLD)

Gun with Glass & Bullets – Prop Composition

Software: Maya, Arnold

Role: Hard-Surface Modeling, Shading, Lighting

A cinematic tabletop composition featuring a custom-modeled pistol...

Additional Prop & Product Studies

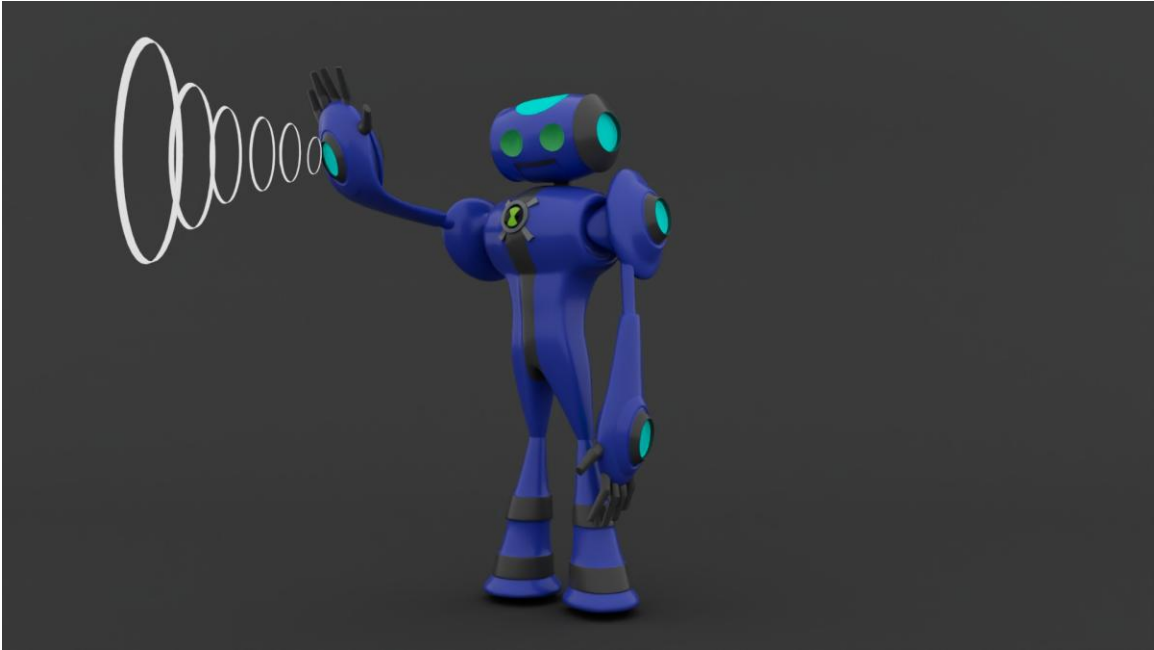

Collection of smaller studies for hard-surface and product modeling (bottles, cans, props, etc.)

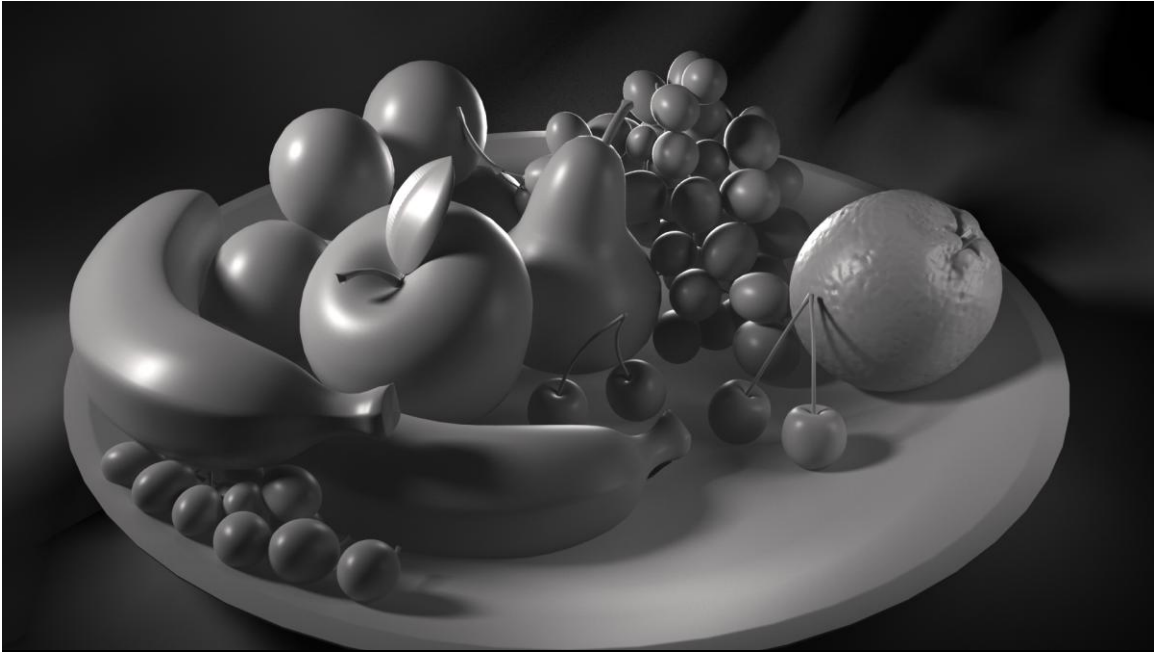

Some More Renders

SKILLS SUMMARY

3D Modeling & Sculpting

Autodesk Maya, Blender, ZBrush, Hard-surface and organic modeling, Environment and prop modeling

Texturing & Materials

Adobe Substance Painter, PBR workflow, UV unwrapping and baking

Rendering & Lighting

Arnold (Maya), Blender (Cycles/Eevee), Lighting for mood/product scenes

Game Development

Unity (C#), 2D movement and camera, Level block-out, Mechanic testing

General

Visual storytelling, Composition, Iteration
